REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Honorable Board of School Directors and Citizens:

I am pleased to submit my twelfth annual report of the schools of Clarendon.

Seven schools are being maintained during the present year.

Statistics relating to teachers are as follows:

Name of Teacher	Name of School	Kind of Certificate
Mrs. Louise Roberts.....	Clarendon Flats.....	E. P. Standard
Lucile L'Herault.....	Hill School.....	E. P. Standard
Cecelia McMahon.....	North Clarendon....	E. P. Standard
Mrs. Zella Cartland.....	Clarendon Springs...	E. P. Standard
Marion Merrill.....	East Clarendon.....	E. P. Standard
Mrs. Ellen Potter.....	Chippenhook.....	E. P. Standard
Mrs. Angeline Savery.....	East Street.....	E. P. Standard

Section 4187, Public Acts of the General Assembly, of 1935, reads as follows:

"The board of school directors shall employ teachers upon the recommendation of the superintendent and fix their compensation but in no case shall the compensation be less

than thirteen dollars per week for a teacher with the lowest grade certificate. This shall be increased three dollars per week for a teacher holding the limited standard certificate, four dollars per week for a teacher holding a professional probationary certificate, and five dollars per week for a teacher holding the professional standard certificate."

Under the minimum program legislation that was passed during the first of 1935, state school rebates are distributed to the different towns in lump sums rather than based on various items as has been the policy in the past, with the understanding that state requirements are fulfilled in the maintenance of the different schools. However, it is understood that these rebates are to be used by the town school district for legitimate items of current expense including the following: "transportation, advanced instruction, supervision, and rural teacher salaries. To be eligible for state aid under the preceding sections, towns must comply with the provisions of the law relative to the teachers' salaries, appointment of superintendents, detailed financial reports to the state department, raising and expending seventy-five cents on the dollar of the grand list, and any other requirements of the statutes."

According to the minimum program, the amount received by the town of Clarendon is, approximately \$3,085.39.

The enrollment and attendance of pupils are given below.

High school pupils sent to school out of town.....	43.....	37.....	40
Cost per elementary pupil.....	\$49 23..	\$37 59.....	\$39 47
Cost per high school pupil.....	60 00..	75 00.....	75 00
Average cost for elementary and high school pupils.....	51 74..	45 68.....	46 71
Average for the state in 1934-1935	\$65 17 (average attendance).		

The above figures are based on enrollment and not on daily attendance. The cost per pupil on the basis of daily attendance would be much higher.

There are pupils who enroll and attend school for a short time and then change to some other town, which causes a decrease in the number attending in town and an increase in the cost per pupil.

SALARY SCHEDULE

	1934-35	1935-36
The elementary teachers' salaries in Clar- endon average.....	\$502 00	\$630 00
The state average is	\$755.00	

The record of attendance in the various schools has been excellent with the exception of the Clarendon Spring's school where a great amount of sickness has prevailed.

All of the schools are provided with supplementary books from the town library at Clarendon Flats. The school directors, in cooperation with the teachers, have encouraged the use of the library books and good results have been obtained.

Much credit is due the teachers in striving to maintain the best possible educational standards in their respective schools. The success of music that has been taught in Mrs. Roberts' school at Clarendon Flats, by Mrs. Taft of Wallingford, has encouraged some of the other schools to adopt the same plans.

The interest of the Parent-Teacher Associations in the different schools has provided substantial materials for the welfare of the students.

REPAIRS

The Hill and East Clarendon schools need painting inside and out. The inside of the Flats school, also, needs painting. This means a protection to the property.

The school directors have made repairs where it seemed absolutely necessary and are interested in maintaining the buildings in good condition.

Cooperation on the part of all parties concerned is necessary to provide the best possible educational opportunities for the children.

Respectfully submitted,

F. W. WALLACE,
Superintendent of Schools.
